

VILLA 9000

Art.nr 1095-03

Composting toilet Villa 9000 is a urine diverting toilet solution that with its simplicity gives you a carefree toilet solution wherever and whenever you need it.

The Villa 9000 works well all year round and aren't temperature sensitive. The diversion of the urine makes both liquid and solid humanure easy to handle. In design, quality and convenience it's equal to a waterbased toilet system.

Capacity:
Unlimited capacity when the waste bin is emptied on a regular basis.

EASY TO USE

CONCEALINW VIEW SCREEN

When you sit down the unique pressure seat opens a view screen that otherwise covers the solid waste container. At the same time, the container rotates making the solid waste evenly distributed.

EASY CHANGE OF CONTAINER

Put the lid over the container and remove the container from the toilet. Place a bag in the container to simplify cleaning. Additional bags and containers can be purchased if required.

2-SPEED FAN

The 2-speed fan runs continuously. Normally at low speed. Speed 2 is used after several consecutive toilet visits or in order to quickly expel excess amounts of condensation, from i.e. a shower

EVERYONE CAN USE THE VILLA

The urine diverting Separett child seat (not included) makes the toilet accessible to our youngest family members.

EASY TO CLEAN

The Villa is very easy to keep clean. Just clean it regularly with a damp cloth and some mild detergent. Also rinse the urine waste with water on a regular basis to counteract urine crystals clogging up the waste.

INCLUDED WITH THE VILLA 9000

- Vent pipe 40 cm Ø75 mm - Vent grid
- Flashing - 90° connector - Vent cowl
- 3 waste containers - 2 lids
- 10 compostable waste bags
- 2 m urine hose Ø32 mm
- Sealing silicone
- Screws for mounting

SUPPLEMENT WITH

- 1013-03 Ejektortank* - 1118-01 Bio drain cleaner** - 1198-01 Cleaning kit*** - Installation materials****

* With an Ejektortank connected to the toilet its easy to make your own nutrient for your garden.

** Bio drain cleaner to help keep the urine drain free from urine salts that can clog the urine hose.

*** Cleaning kit with all the things you need to keep your Villa 9000 clean.

INSTALLATION

The Villa can be installed in both a heated and cold space. It only requires electricity, the ability to lead urine to a separate container and a ventilation pipe. The Villa 9000 is delivered with all material you need for an installation 1 (see picture).

The Villa 9000 can be installed with a ventilations pipe up to 10 meters (32 feet) making it possible to adapt the ventilation to local conditions.

If a ventilation pipe from an earlier toilet solution is already installed you connect the Villa 9000 to this ventilation pipe.

The Villa 9000 is also equipped with at condensate collector, therefor there is no need to insulate the ventilation pipe.

You'll need the following installation materials

Alternative 1:

- Installation kit (included)

If existing vent pipe has a lower dim.:

- 1024-01 Joint seal vent pipe

Alternative 2:

- 1020-03 Ventilation pipe

If existing vent pipe has a higher dim.:

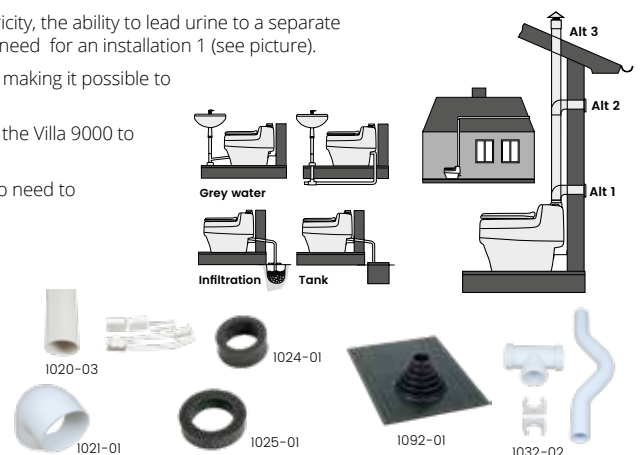

- 1025-01 Joint seal vent pipe

Alternative 3:

- 1020-03 Ventilation pipe
- 1092-01 Roof flashing, tarred/tiled roof

For connection to grey water drain:

- 1032-02 Urine drainage kit

TECHNICAL DATA

VILLA 9000	Material	container	Voltage/Wattage	Power consumption	Electrical connection	Noise level Max weight	Pack. size /weight
	Recyclable high gloss polypropylene	23 l polypropylene Full container about 8-10 kg	230 V / 16.5/11 W	0.396/0.276 kWh/24 hrs	Cord 1.7 m with grounded plug	41/31 dB(A) 150 kg	L:77 W:47 H:66 cm 21 kg

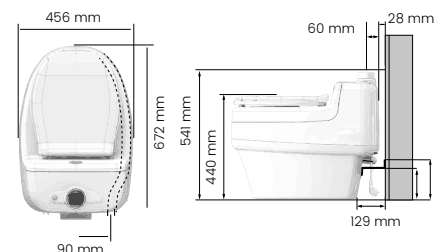

Connections:

Ventilation out: Ø75 mm
Urine Drain: Ø32 mm
